### Frequently Asked Questions

#### How far is New York from Dallas Fort Worth by plane?

The distance from New York to Dallas Fort Worth by plane is 1389 Miles. This is the air distance on the most direct route taken by the vast majority of flights.

#### How long is the flight from New York to Dallas Fort Worth?

The flight time from New York to Dallas Fort Worth is 3 hours, 45 minutes. The time spent in the air is 3 hours, 14 minutes. These numbers are averages. In reality, it varies by airline with Delta being the fastest taking 3 hours, 40 minutes, and American the slowest taking 3 hours, 47 minutes.

#### What airlines fly from New York to Dallas Fort Worth?

American, Delta, and Spirit are the airlines with direct flights from New York to Dallas Fort Worth.

#### Does Southwest fly from New York to Dallas Fort Worth?

Southwest does not fly from New York (LGA) to Dallas Fort Worth (DFW). Keep in mind that Southwest may fly to other nearby airports, as they will often fly into smaller airports instead of larger ones. This is because the costs are often lower to fly into smaller airports, and they pass the savings on to you.

### Tables and Explanations

#### Data Source

Our information is computed from the latest available data from the US Department of Transportation.

#### Average Timeline Timeline Chart

The average timeline contains the median time a flight spends in 3 stages. The first of these three stages is taxiing out which includes the time from the flight leaving the gate to taking off. The second stage is in the air, which includes the time spent from the flight leaving the ground to touching back down at the end of it's journey. The last stage is taxiing in, which is from when the flight touches down to the flight arriving at it's gate.

The average timeline also estimates on average of when the flight will leave and arrive relative to it's stated departure time.

Leaves New York 3 minutes early Taxi Out Time 16 minutes In the Air 194 minutes Taxiing In 10 minutes Arrives Dallas Fort Worth 16 minutes early

#### Flight Reliability Reliability Chart

The reliability of an airline measures how often the airline's flights on this route are cancelled or delayed more than 20 minutes. For example, from New York to Dallas Fort Worth, Spirit is 79% reliable, which means that Spirit flights are on time 79% of the time, and cancelled or delayed the remaining time.

Airline Normal Flights Arrival Delayed\* Flight Cancelled American 85% 11% 4% Delta 84% 14% 2% Spirit 79% 19% 2%

Each airline takes a different amount of time to fly between New York and Dallas Fort Worth, this is due to different operational factors on the ground, as well as scheduling of planes. Each airline's flight time is split into three stages which are described above in the "Average Timeline" section. There are also miscellaneous operational issues which are included in the below total but are not accounted for in one of the three stages.

Airline Taxiing Out (minutes) In the Air(minutes) Taxiing In(minutes) Total(minutes) Delta 15 194 8 220 Spirit 13 191 10 220 American 17 195 12 227

#### Flights By Time of Day Flight Time By Day Chart

This one is pretty self explanatory, it represents the number of flights that leave the gate in a given hour of the day. The tricky thing here is that this is normally not a whole number since it is an average over 52 weeks. Partial numbers may indicate that a flight may be seasonal or may take off at different times due to different operational factors.

Time Count 10am 1.05 11am 0.57 8am 1.16 2pm 0.87 6am 1.01 3pm 0.75 6pm 0.59 12pm 0.89 7pm 0.65 5pm 0.68 4pm 0.68 8pm 0.01 5am 0.19 1pm 0.93 9am 0.53 7am 0.87

## Flights By Month Flights By Month Chart

The quantity of flights from New York to Dallas Fort Worth that take off in a given month of the year. This number changes because some flights are seasonal, and almost all flights have uneven demand throughout the year.

Month Count January 528 February 195 March 260 April 273 May 288 June 296 July 316 August 343 September 359 October 427 November 525 December 492

## Flights By Day Of Week Flights By Day of Week Chart

The quantity of flights from New York to Dallas Fort Worth that take off on a given day of the week. Some routes only have enough demand to sustain a few trips a week, while others have many flights a day. This number is also an average across the year, and hence may not be a whole number.

Day Count Monday 13.1 Tuesday 11.46 Wednesday 11.27 Thursday 13.12 Friday 13.17 Saturday 8.81 Sunday 11.81

## Flight per Airline (per Week) Flights By Airline Chart

How many times an airline flies this route in a week. Different factors play into how often a carrier chooses to fly a given route including its need to connect disparate routes, and demand.

Airline Flights per Week American 1 Delta 0 Spirit 0

## Flight Time By Time of Day Flight Time by Time of Day Chart

The total flight time varies by each hour of the day due to factors such as airport traffic. More flights leaving an airport may cause higher taxi in or taxi out times. See the description of the average timeline above for a deeper discussion of each of these times.

Time Taxi Out(minutes) In the Air(minutes) Taxi In(minutes) Total(minutes) 10am 16 192 11 221 11am 15 195 10 222 8am 16 196 13 229 2pm 16 194 11 226 6am 15 196 13 229 3pm 17 193 10 222 6pm 17 190 10 225 12pm 15 198 10 226 7pm 19 192 7 222 5pm 18 200 7 232 4pm 18 194 13 229 8pm 16 195 14 225 5am 17 203 10 231 1pm 16 190 10 219 9am 16 193 8 219 7am 15 193 9 220

Open this map directly on Google Maps. For a quick answer, you can use [TheDistanceNow.com](https://www.thedistance.com) to get the distance from New York to Dallas.

### More trip calculations

#### Flying time from New York, NY to Dallas, TX

The total flight duration from New York, NY to Dallas, TX is 3 hours, 16 minutes.

This is the average in-air flight time (wheels up to wheels down on the runway) based on actual flights taken over the past year, including routes like LGA to DFW. It covers the entire time on a typical commercial flight including take-off and landing.

If you're planning a trip, you should also factor in extra time for the plane to pull back from the gate and taxi to the runway, as well as reaching the destination gate after landing. If you include this extra time on the tarmac, the average total elapsed time from gate to gate flying from New York, NY to Dallas, TX is 3 hours, 48 minutes.

Finally, pilots might want to estimate the flight time using an average flight speed for a commercial airliner of 500 mph, which is equivalent to 805 km/h or 434 knots. If you don't add any extra time to increase or decrease speed for take-off and landing, then at constant speed your flight time would be 2 hours, 45 minutes.

If you're booking a flight, make sure you check the scheduled departure and arrival times. You should also factor in airport wait times and possible equipment or weather delays. If you're trying to figure out what time you'll arrive at the destination, you may want to see if there's a time difference between New York, NY and Dallas, TX.

The calculation of flight time is based on the straight line distance from New York, NY to Dallas, TX ("as the crow flies"), which is about 1,373 miles or 2 209 kilometers.

Your trip begins in New York, New York. It ends in Dallas, Texas.

Your flight direction from New York, NY to Dallas, TX is West (-106 degrees from North).

The flight time calculator measures the average flight duration between points. It uses the great circle formula to compute the travel mileage.

## Flight time calculator

Travelmath provides an online flight time calculator for all types of travel routes. You can enter airports, cities, states, countries, or zip codes to find the flying time between any two points. The database uses the great circle distance and the average airspeed of a commercial airliner to figure out how long a typical flight would take. Find your travel time to estimate the length of a flight between airports, or ask how long it takes to fly from one city to another.

# How long is the flight from New York City to Dallas?

How long does it really take to fly from New York City to Dallas? Here's a sample itinerary for a commercial flight plan. If you want to know the total travel time to reach Dallas, you need to include time at the airports. Eventually, you'll be able to customize this itinerary to select other nearby airports and choose your preferred airline.

Thursday, 11:52 am: start in New York City drive for about 38 minutes most airlines recommend you get to the airport at least 90 minutes before your flight, so arrive by 1:25 pm at the latest

12:30 pm: John F. Kennedy International (JFK) if you need to check luggage, make sure you do it at least 30-60 minutes before departure, or in this case, by 1:55 pm

1:00 pm: get your boarding pass and go through TSA security allow enough time for long security lines during busy travel seasons or holidays, and prepare for the wait time

2:00 pm: arrive at the gate once you're ready to board, you can get something to eat in the airport or just relax near the gate

2:30 pm: prepare for boarding check your boarding pass for your group number or listen to the gate agent as they announce boarding, some airlines require you to be in the boarding area 10-15 minutes before departure or risk losing your seat

2:45 pm: board American Airlines Inc. flight you can scroll down to view other airlines that fly this route

2:55 pm: this is your scheduled departure time but this flight is usually delayed by an average of 7 minutes

3:02 pm: so this is your actual departure time it takes the plane an average of 28 minutes to taxi to the runway

3:30 pm: wheels up! take-off from JFK fly for about 3.5 hours in the air

6:00 pm (local time): Dallas/Fort Worth International (DFW) Dallas is 1 hour behind New York City so the time in New York City is actually

7:00 pm taxi on the runway for an average of 13 minutes to the gate

6:13 pm (local time): arrive at the gate at DFW deboard the plane, and claim any baggage if you're renting a car, check if you need to take a shuttle to car rental agency, otherwise you can ride in a cab, limo, or Uber for about 48 minutes to your destination

7:01 pm (local time): arrive in Dallas

Total travel time: 8 hours
