2009 Nissan Cube Catalytic Converter (Front) - 20010-1FN0A

- Essential part of your exhaust system
- Helps control emissions by filtering and reducing pollutants
- Replace when failing or worn out

The Catalytic Converter (Front) on your Nissan is an essential component to the exhaust system. The Catalytic Converter (Front) helps regulate emissions by filtering and reducing pollutants and toxic gases. Without a functioning Catalytic Converter (Front) on your Nissan, toxic fumes from the internal engine combustion process could release harmful gases into the environment through the exhaust system. Help ensure your Nissan has

an optimal exhaust system with a genuine Catalytic Converter (Front) from Nissan Parts.

If your Catalytic Converter (Front) is worn out or not working, you may experience a few signs, such as reduced acceleration, excessive heat coming from underneath your Nissan, a sulfuric or rotten egg smell from the exhaust, darker exhaust smoke, or even slow engine performance.

Additionally, an issue with the Catalytic Converter (Front) in your Nissan can cause the check engine light to disrepanne
