

Is Israel Adesanya Dating a Girlfriend? Or Is He Gay?

Nigerian-born New Zealand professional MMA fighter Israel Adesanya has earned a huge name as one of the best strikers in mixed martial arts. In his professional MMA career, he has made a record of 21-1-0 (win-loss-draw).

The UFC Middleweight Champion has earned such fame that his professional works don't need to be described or put into words. However, what his fans are very eager to know is his love life.

The former kickboxer has not really given any hint on his romantic life, which has made the public more eager.

The former AFC Middleweight Championship is very private when it comes to revealing his personal life details. To this date, he has rarely given any clue on whom he is dating.

Despite all the secrecy, there was once a rumor that Adesanya was in a relationship. The rumor began just ahead of the UFC 253, in September 2020, when the MMA fighter posted some clips of a mysterious girl on his Instagram stories.

This led his desperate fans to speculate that he is in a fresh relationship. However, they never got to identify the girl as Adesanya had cropped out her face.

The public only got to see the face of Adesanya's girlfriend when the parent company, Zuffa LLC, posted a picture of them together. Later, they were seen sharing a bathtub together, which affirmed that they were together.

On November 21, 2020, he posted a picture of his alleged girlfriend on top of a hill or mountain, with just her back facing. The last sentence of the caption made his relationship further confirmed. It said, "Don't ask me to do shit when I'm back in NZ for the summer... I'm busy!"

As their togetherness was almost confirmed, people began to believe that the mysterious girl was working as a UFC ring girl. But, that speculation went wrong as there was no information of any UFC ring girl that matched with the mysterious girl.

After Adesanya's girlfriend name was not disclosed and she seemingly disappeared from the MMA fighter's Instagram, it was rumored that they had broken up. But, as he has not confirmed his relationship, the speculations are just limited to gossips.

Is Israel Adesanya Gay?

As Adesanya's love life is filled with secrecy, some people have had speculated that the 6 feet 4 inches tall UFC fighter is gay. The other reasons behind the speculation were his hair color and dressing choice.

However, all the gay rumors stopped once the Lagos, Nigeria native fighter addressed the topic himself. He took to his Instagram story to post a picture of a comment section in which one person had written, "I honestly thought Izzy (Adesanya) was gay" another had replied, "same man that pink hair threw me off"

In reply to that, Adesanya had written in the story that this type of comment comes every fight week, with the addition of bored and eye-rolling emojis.

The gossips also stopped when the fighter tweeted a picture, on December 30, 2020, alongside his friend and captioned it with “Ha! Gaaaaaayyee!!”

Furthermore, on the same day, he also posted a gif of ‘Trying to Figure Out Meme’ with a caption that said, “The internet tryna find out if I’m gay.”

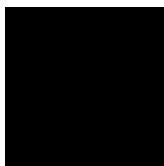

Well, all of this, as well as the possibility of a girl’s presence in Adesanya’s life, clearly gives out only one possible outcome, that is Israel Adesanya is not gay.

I was watching his interview on Breakfast club and Israel is very charismatic and well spoken and a top class fighter for real, he is like more exciting version of Jon Jones he has a finisher mentality.

But when the host Charlamagne asked him about sex before a fight, Izzy said he made records and that its a myth they start laughing and Izzy said shout out to the PAPI, and Charlamagne thought he said PUPPY, and said what kinda nicknames are you giving her and Izzy didn't correct him but then said Andrew knows whats up which I believe is the grey haired guy who he was almost going to kiss in the cage.

here it is timestamped

Adesanya is awesome, my new favorite fighter he won me over against Gastelum dude is a beast

- 11. Whatever if he is, he is. He is known to use sherdog terms like "is normal". So my guess he knows we have wondered and is now fucking with us.
- 12. Maybe then he also means that Jon Jones is a closet / repressed homosexual?

(I'm everything JJ wishes he could have been')

Could be where a lot of Jones' issues stem from if true.

Is Israel Adesanya Gay, Bisex, Or Straight?

Israel Adesanya is a Nigerian New Zealand-based professional Mixed Martial Arts fighter who has currently been crowned the Middleweight Champion of the UFC and is also ranked 4th in the UFC men's pound-for-pound statistics, as reported by UFC. Prior to these achievements, Israel successfully defended his middleweight championship against Marvin Vettori in the UFC 263 main show on June 13, 2021, which led to him being largely considered one of the finest strikers in MMA. However, what's the sexuality of the finest striker in the UFC? Is he gay, bisexual, or straight?

Although Israel is rumored to be gay due to his social media posts and other suspicious acts displayed, he has not revealed his sexuality. His pronouns are he/him so this indicates that he's not also transgender. Until he announces his sexuality, the declarations on the internet will remain rumors.

On December 30, 2020, Israel made a tweet about the media being interested in his sexuality and them wanting to know if he was gay, however, he didn't make any declarations on that day. In this piece, I'll be discussing if Israel Adesanya is gay, bisexual, or straight, and I'll also shed more light on his relationship status if he has a girlfriend or he's married.

Is Israel Adesanya Gay, Bisex, Or Straight?

Israel's sexual preference has been a public conversation over the years especially due to his social media posts and the controversies surrounding his posts and actions.

The questions about his sexual preference have intensified over the past months since he established himself as one of the top mixed martial arts fighters in the sport today since he's dominated the middleweight championship.

In 2020, an old picture of him with bright pink hair was posted online, sparking conversations around his choice of sexuality which led to intense debate on the MMA message boards as regards his preferences.

Several users had the opinion that someone of Israel's stature coming out as gay would be huge for the LGBTQ community as it'll shun a lot of stereotypes in sports culture and society in general.

However, even with all of the speculations and assumptions about Israel being gay, he hasn't made a declaration of his sexuality which still leaves his fans and the whole of the MMA community puzzled about his sexuality. Even though he hasn't made a declaration about his sexuality, his social media posts depict him being gay and even Instagram had to take some of the posts down.

Since Israel hasn't made a declaration about his sexuality, we can only judge from what he lets us see on his social media which does depict his gayness. However, until he declares his sexuality officially, let's keep our fingers crossed.

Is Israel Adesanya Bisexual?

Is Israel Adesanya Gay, Bisex, Or Straight?

Israel hasn't expressed his sexuality around being bisexual so it's not certain if he is bisexual or not present. Since an old photo of Israel surfaced on social media where he had pink hair, there's been a lot of speculation about him being a member of the LGBTQ community with a lot of MMA fans airing their views on this.

A fan mentioned that "a big name coming out would help the sport", however, Israel hasn't said or mentioned anything about his sexuality, keeping his fans in the dark and also keeping his private life private it seems.

This discussion isn't isolated because in 2019 when Israel fought Anderson Silva and defeated him, a similar argument raged.

A fan wrote of Israel, "as a bi man myself, I get the vibe", indicating how he feels Israel may be bi but Israel never mentioned his sexuality or if he truly is bisexual. This doesn't mean we should rule out him being bisexual however, it's important to wait till he declares his sexuality before asserting his sexuality.

Is Israel Adesanya Straight?

Israel seems to be a very private person as he doesn't discuss his personal life with the media nor share it with the public via his social media. Even though he seems very private as regards his relationship and sexuality, his being straight still seems like a mystery because his social media posts depict that he may be a member of the LGBTQ community.

None of his posts on social media nor his actions live indicate that he's straight as we've never heard of him having a past girlfriend, present girlfriend, or wife. Maybe he isn't straight or just maybe he's very strict with his private life and doesn't want anybody meddling in his business, who knows?

He's been very outspoken about his family though as he's even brought them out when he won his fight, however, his sexuality has always been a secret. He's also never mentioned him being involved with a girl or being married and he's also not indicated his sexuality so in this instance we'll also keep our fingers crossed and wait for him to come out whenever he's comfortable.

Does Israel Adesanya Have A Wife Or A Girlfriend?

Is Israel Adesanya Gay, Bisex, Or Straight?

Israel Adesanya isn't married yet, so this means he doesn't have a wife. He's also not uploaded any images of his girlfriend or partner nor has he ever discussed his girlfriend or partner publicly with the media. Israel has been very secretive about his relationship and love life so there's barely much known to the public except for assumptions made from his Instagram posts and his live actions.

It also goes without saying that in the latest countdown when he took his dogs for a walk and a kitten was on his chest, he had a guy with him, and usually, that's the time to show off a girlfriend and or kids. However, he never introduced the guy as a coach or a nutritionist yet they live together and they seem pretty close. And the guy also looks to be the guy that Israel kissed after knocking out Derek Brunson.

Particularly, it doesn't matter what Israel's sexuality may be, either straight, gay, bi, transsexual, it doesn't really matter. His sexual preference remains his personal business and he can share it whenever he's comfortable or keep it to himself as he sees fit. With this in mind, there's no belittling how impactful it'd be if someone of his magnitude came out so we'll keep our fingers crossed till we can ascertain his sexuality.

Is Israel Adesanya Gay, Bi or Straight?

Adesanya Gay, Bi or Straight?

Is Israel Adesanya gay, bi, or straight? The UFC star's sexual orientation has been a frequent topic of debate over the years. The questions have only grown since he defeated Robert Whittaker to become the champion of the world at middleweight.

On Thursday, speculation regarding whether Adesanya is gay, bi or straight resurfaced when images of him with bright pink hair emerged online.

To be clear, it is not even clear that Adesanya really colored his hair pink. Thus far, only one photo indicates that is the case. But it did lead to some people speculating on the MMA subreddit that it was indicative of something more.

"I have a feeling Izzy might be gay," wrote one user.

"Has he come out yet?" questioned another.

Several users suggested that someone of Adesanya's stature coming out would be huge for the LGBTQ community, as it would bust a lot of stereotypes in sports culture and society in general.

"Honestly a big name coming out would help the sport," wrote one person.

"There are gay male fighters but they don't ever come out because of the stigma."

Israel Adesanya Has Had His Sexual Orientation Questioned Before

This is not the first time MMA fans have wondered about whether Adesanya is gay, bi or straight.

Last year, when he fought Anderson Silva, Adesanya pledged to reveal something big following the bout. At the time, many questioned whether it was something pertaining to his sexual orientation.

"As a Bi man myself I get the vibe," one user wrote of Adesanya.

"In the latest count down when he took his dogs for a walk and a kitten on his chest he has a guy with him usually thats the time to show a gf and or kids. Never introduced him as a nutritionist, or coach they live together and they seem pretty close. And that guy looks to be the guy that Israel kisses after koing Derek Brunson.

"He also posts tons of gay pictures on his insta some have been taken down."

The posts in question can be found below.

Some have also referenced an appearance Adesanya made on The Breakfast Club last year, where the topic of significant others came up.

Obviously it does not matter if Adesanya is gay, bi or straight. His sexual orientation is his business and he can share or it keep it quiet as he sees fit.

That being said, there is no understating how impactful it would be if someone of his magnitude came out. Any athlete coming out is a big deal — but one of the toughest, strongest and most gifted fighters of all time doing it would be on a whole different level.

Israel Adesanya Will Next Fight In September

Adesanya's next bout is scheduled for September of this year. He will take on Paulo Costa at UFC 253 in Las Vegas, Nevada. It will likely be the biggest test of the 31-year-old's career.

Many expected Adesanya's last bout, against Yoel Romero, to be a classic showdown featuring a power punching-wrestler versus an expert striker. Instead it was just five rounds of nobody doing much.

The Costa fight will be different. It will be the fight everyone was expecting when Adesanya agreed to take on Romero.

If Adesanya ultimately emerges from his next match victorious, it is tough to see a scenario where anyone in the UFC's middleweight division will be able to dethrone him at any point in the next few years.

A longtime sports reporter, Carlos Garcia has written about some of the biggest and most notable athletic events of the last 5 years. He has been credentialed to cover MLS, NBA and MLB games all over the United States. His work has been published on Fox Sports, Bleacher Report, AOL and the Washington Post.

Israel Adesanya Took A Mysterious Girl Shopping Before UFC 253

Israel Adesanya Has Been Speculated To Be Gay For A While Now. Confirming Nothing About His Sexuality He Dropped A Little Hint On His Instagram

Israel Adesanya shocked his entire fan base after a mysterious woman made an appearance on his Instagram. It was quite a big deal for his fans as this was the very first time the UFC star gave a little hint of his personal life.

Adesanya's Mystery Girl

In September 2020, right ahead of UFC 253, Israel posted two pictures on his Instagram stories and created a buzz among his 5.4 million followers.

Usually keeping a rather low tone on his private life, it became a point of discussion when he suddenly shared several pictures of a woman without showing her face.

The mysterious woman went on shopping with the fighter and was quite excited in both of the videos.

The UFC fame was also equally excited. He also pointed out how he took her shopping from his hotel room on the fight week.

He posted a story of the woman twirling around in the dress and wrote,

"On fight week I take her shopping from my hotel room"

Who is the 'her' in question? Maybe a friend or maybe a potential partner. It remains a mystery to date. Because of the uncertainty of his relationship, people often wonder about the 'status' of his sexuality.

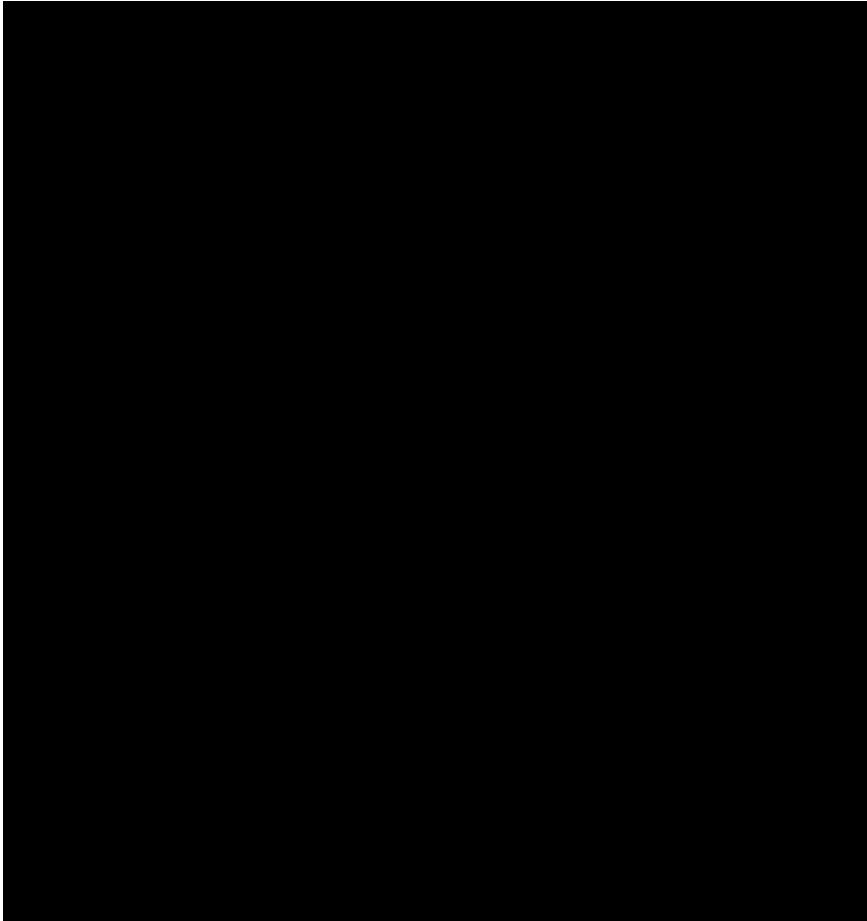

Is Israel Adesanya Gay?

Adesanya, also known as The Last Stylebender, doesn't have any records of having a girlfriend or a wife. However, because of his low-key personal life, people often speculate the martial artist to be gay.

Nevertheless, Adesanya does not take it offensively and finds a way to make fun of these speculations with his top-tier humor.

On December 30, 2020, he took to Twitter and made a hilarious post towards people trying to find out his sexuality.

He posted a GIF and humorously captioned it as, "The internet tryna find out if I'm gay."

Likewise, the 32-year-old loves to add fuel to the speculations by sharing posts that only spark more conversations in the comments.

The way he responds to the speculations shows how he does not give much attention to it and rather takes it lightly.

Apart from all of this, his career speaks the most for himself.

Career Of The Star

The Nigerian-born martial artist officially started his career in 2010. This was the same year he won his first fight and later recorded 6 other consecutive wins.

But it wasn't until 2012 when he made his first professional debut. He won a TKO against another prolific player in the industry, James Griffiths.

After gaining success in MMA, he made some changes and signed a deal with the UFC in 2017.

In 2018 he won his first Performance of the Night title and went on to win two more Performances of the Night title during the same year.

As of recent, he won his match with Marvin Vettori for the UFC Middleweight Championship on June 12, 2021.
