What is the largest night skiing area in America?

The answer depends on what definition of 'America' you use and on how you measure it. Different resorts claim the title, but based on what definitions and measurements? If 'America' means the USA, then Mt. Hood Skibowl in Oregon claims the title 'America's Largest Night Ski area' on its website based on its 34+ trails on 550 acres (but does that mean all 550+ acres are actually skiable?). If 'America' means North America, then two ski resorts in the province of Quebec make slightly different claims: - Ski Bromont: claims Largest Lit Skiable area in North America. As of the 2012/2013 season, it has 87 lighted ski runs + 15 glades. - Stoneham: Claims Largest Night Skiing area in Canada. 19 runs covering 184 acres.
