How to make the process of word search accurate

1. Enter the letters you know in the order in which they are found in the word.
2. Select the desired word length if you have to look for words with a certain number of letters.
3. The system will present the right words, separated by blocks.

You have the opportunity not only to learn new words on the set parameters, but also to become familiar with their use in the text, which helps you remember the lexical meaning of a word better.
