## **MP3Juices Features**

Now that you have a basic understanding of Mp3Juices' features, it is time to learn more about them. MP3Juice offers many benefits that you will find useful. Here's a list of features that MP3 Juice offers.

### **1. Unlimited Conversions and Downloads**

This platform allows you to download many videos and songs. This platform allows you to download hundreds, if not thousands of songs every day. This platform lets you download unlimited music and videos whenever it suits you.

Mp3juice never puts any limit on the number of files to convert or download. Nor how many times a user uses the services of the website. Everything is unlimited. The one that has the limit is probably the user's storage space on the device used.

Better check your storage capacity before you download any files from Mp3juice. Since the website does not limit the number of files, the storage capacity can be overloaded. You can use an SD Card as an external storage space to have more room for the new files.

### **2. Secure and 100% safe connection**

It's a safe and secure online MP3 downloading platform. This platform allows you to Download MP3 music for free without any restrictions or viruses.

You can also activate an antivirus program if you wish to feel more protected. You can also install an anti-malware application before downloading MP3Juices music. This will protect your computer from malware and viruses.

Mp3juice guarantees all the files will be 100% safe and secure. You don't have to worry about bandages for viruses. Not only that but this website is also safe from cybercriminals. That way, you will not have to worry about any security breach.

But there is no harm in having your malware or virus detection program on your device. That way, you have a double guard to prevent any harmful program from damaging your device. Better safe than sorry, right?

### **3. It's easy to use**

As a tool developed by music lovers, Mp3juice helps millions of users who want to download songs in MP3 format. All these without spending a dime. There is no cost needed.

The system is also very easy. Just put the information into the search box, then you can find the song you like. Convert it to your chosen format and file size. Then after the conversion is finished, you can freely download it to your device.

You can get the information by type-in the song title, or the name of the singer or the band. Or, if you copied an URL link from another music platform, you can directly paste the link to the search box. Then click "search" and wait a bit until the system gives you a list of options.

You can listen to or download the song you choose to your device after the conversion process is finished. After that, the song is yours to enjoy without the need to connect to an internet network.

You can also use the free search engine provided by this platform. It's much easier to search for Download MP3. You can then search for songs by artist name, song title, or genre.

### **4. High-Speed Conversions and Download**

Mp3juice downloader can be recognized by SSL encryption. Meanwhile, this website has also been optimized for the highest speed. So, the conversion and download processes will only take a couple of minutes to finish.

But do aware that the stability of your internet connection will also be affecting the processing time. But if it is stable, then you don't need a lot of time for the process to finish. Using a private network will give you more speed and freedom compared to a sharing network.

The platform boasts a fast download speed. This platform allows you to quickly download and convert your favourite music online in under a minute.

Next, the platform's automated system performs the reference searching process and converts files into MP3. This platform allows you to enjoy music in a new format in just 1 minute.

## **5. Support for Audio (mp3) and video (mp4) formats**

The Mp3juice website will allow you to listen to the song before you download it. To download that song, choose the format that you like. You can choose MP3 format for an audio file or video format in MP4 or even Mkv for some files.

For some devices that can only receive the simple format and smaller file sizes, you can choose the MP3 format with a small file size of 64kbps. Don't worry about the quality, all file sizes will maintain their quality just as well.

Usually, some old devices (old phones, for instance) can not receive a big file. But don't worry, this website provides you with some file size options for you to choose from. Choose the small file size in MP3 so the old phone can process it.

## **6. Share your favorite music with others**

You can download your favorite song from MP3 Juice and share it directly to other social media like Instagram, WA, Facebook, or other social media. This way, you might be able to find someone who is interested in the song. You can then follow their path by downloading the song via Mp3Juices.

## 9. Unlimited Download

There is no limit to how many songs or music videos you search for, converted, then download to your device. Or how many times you visit the Mp3juice website. It will be no limit whatsoever.

This is the fastest way to build your music library on your device. Since there is no limit to the number of downloads or visits, collecting your favorite songs will be an easy task.

Related to that unlimited download, you better check your storage space first. Especially if you planned on making a music library. You will need big storage space for all the files you plan to download. Using an external memory card will be beneficial.

Or keep them in your Cloud account. You can download it in the later days after you arrange the files on your device to accommodate all the files you downloaded.

## 10. Formats Alternatives

Mp3juice provides many kinds of formats. The song or music video you search for can be converted to MP3 or MP4 and MP4a formats. Depending on your choice.

- For MP3 format, the file size is 64kbps, 128kbps, and 256kbps.
- MP4 format, the size files are 320p, 460p, and 720p. Even in Mkv format.

Every time you convert a file, you can choose any format that is the most convenient for you. You are allowed to change the format or file size for each file you want to download. This website will not forbid you to change them as you like.

If some devices can only receive and process the smaller file size, the best is probably in MP3 format with a 64kbps file size. Usually, even an old phone can process this nicely. Don't worry about the quality of the file, Mp3juice will always maintain the best quality for each file.

## What to Prepare

Before you want to download any song from Mp3juice, you should prepare a few things. This is essential for you so you will not have any disturbance. Here is the list:

- A stable internet connection. Even though the process in Mp3juice is fast, if your internet connection is unstable or slow, this could hinder the download process.
- Choose the browser you like to use. Whether Google Chrome or any other browser that you usually used.
- Storage space in your device. If you plan to download more than a few songs or music videos, please prepare some storage space for them. That way, you can save as many files as you like without thinking about storage space.

If the internal memory in your device is limited or already full of many other files and applications, use an external memory instead. Whether an SD Card, an external hard disk, or save it to your Cloud account.

## Comparison between MP3Juices & Other Music Download Platforms

MP3Juices is not the only similar platform. BeeMP3, MP3Skull and many others are also available. MP3Juice is different from other platforms so more people like it.

MP3Juice, for example, links URLs to other platforms when downloading their content. This is in contrast to MP3Skull which has only 4 Shared and YouTube.

MP3Juices has an easy-to-use interface that makes it simple for users to use. Even if this platform is your first, you'll be able access it instantly. MP3Juices offers more formats and is free of ads, which is a big advantage over other similar platforms.

Except MP3Juice and all other platforms, you will find annoying Po-up ads on these platforms. You can also download videos through MP3 Juices. You just need the URL link to download the video.

Mp3Juice allows you to also download albums from other platforms. This is a significant difference from MP3Skull and BeeMP3, which can often limit your ability to download your favorite music.

## Alternatives Ways to Download from Mp3juice

As mentioned earlier, using Mp3juice is a very easy thing to do. You don't need to have any expertise to operate a system this simple. Just follow these simple and easy steps as mentioned below, either for Android devices or iOS and to your PC or laptop.

### 1. Using Android Devices

There are many types of Android devices available these days. Whether it is a tablet or a smartphone. But whatever they are, everything should be compatible with Mp3juice. Here are the steps on how to download from Mp3juice using an Android device of your choice:

- Go to your browser and search for the Mp3juice website.
- On the main page of the website, there is a search box.
- Type the song title you search for on the search box. Then press the search icon on the right side.
- In a matter of seconds, the system will show you a list of songs that have the same titles.
- Choose the one you search for.
- Then you will be presented with two options. Whether you want to listen to the song only, or you want to download it. You can click the "Play" button if you just want to listen to it.
- If you want to download the file, click the "download" button. Then, you will be directed to a new page that has alternatives of formats and file sizes. Choose MP3 or MP4 format. Then choose the file size.
- After that, click the "Download" button. Wait until the conversion process is done.
- Choose the space you want to save the converted file. Then "Save". Now you are done.

If you like a song or music video from another platform, try to get its URL link. Copy that link and paste it to the search box on the Mp3juice website. The rest of the steps will be the same as mentioned above.

### 2. Using iOS Devices

If you use an Apple device such as an iPhone, then you will need a computer that has an iTunes program installed.

Get the app from the iTunes platform. Then you must know that iTunes will do a sync. As such, you should delete all songs that are not on iTunes. Please make sure that your software is up-to-date and set up correctly.

- You can use a USB cable to connect your iPhone to the PC. When you open iTunes, in the upper left corner of the screen you will find then click the iPhone icon there. Run the software to check how much storage space you still have left on your device.
- To get the song, click the link. Open your browser and go to the Mp3juice website. Follow the same steps mentioned above (for Android devices) to get the song you like. Wait until the download is finished.
- After that, look at the Summary tab on iTunes. You can see this option on the left panel. Then, click the “Apply” button. Tap the back arrow and you can see the library section on the left pane. Continue to choose option “Songs”.
- Put all the songs you downloaded from Mp3juice in the library. You can see the list there when the download is done.

### 3. Using a PC or Laptop

If you are using a PC or a laptop to access the Mp3juice website, then it will be even easier. The steps are the same as using Android devices. The difference will be the storage space you save for the converted songs.

You can save the converted songs into a new folder or into a drive on your computer. Then you can enjoy playing and listening to the songs while working or doing other activities.

If you want to transfer the file to any other device, you can easily use a USB cable as the connection. Copy and paste will do just fine.

Easy, right? With this Mp3juice website, you will not find any difficulties in downloading any songs you like. As long the song is out there, Mp3juice can find it for you.

So now you can get any song or music video from many other platforms. Just copy the link then paste it to the Mp3juice website. Then you will also have that file on your device. Easy!

## FAQ (Frequently Asked Question)

There are many common questions asked by many people. Especially from people that are never downloaded any files from a free website such as this Mp3juice website. Here are some of those questions:

### 1. Why am I getting no results for the search query?

There are two options to solve this problem. One is from the Mp3juice website, the other one is from the device you use. Here are the explanations:

- The first one is to activate at least 1 (one) download source. You can do this by looking under the search bar. There is a “manage sources” button for you to click so you can manage it.
- Just in case you still get no result, then try to clear or delete your browser cache. After that, restart your browser. Then continue to refresh the page. Now you can start your search again.

Make a habit of regularly cleaning or clearing your browser cache. Especially if you are active on the internet. That way, you will have any difficulties later on.

### 2. Why can't I enable/disable a download source?

To solve this problem, try to clear your browser cache. Then, restart your browser and refresh the page. If this solution is still not working, send an email using the contact form provided on the website.

### 3. There is an error message and no file when I click download

Please go to the Mp3juice website and fill out the contact form with the error code shown on the error page. The application will try to fix the error. This app will try to fix the error by using the error code you provided.

That way, the app will know exactly what went wrong. So, please provide the error code in the contact form you send us. But please write to us in the English language. It will be easier and faster for us to reply in English other than in other languages.

### 4. I can't save any file on my Apple device

To save any files from Mp3juice to your Apple devices, you need an additional application. You can install a browser app to help, such as Documents by Readdle. With this browser, you can download files to your device.

The alternative solution is using your Cloud account to save the file. Then you can stream those files from there.

Earlier we gave you step-by-step on how to download it on iOS. Please follow those steps so you can save the downloaded file to your device.

### 5. I keep receiving push notifications from Mp3juice. How to stop them?

Please unsubscribe from it first. That should stop the notifications.

### 6. Is it possible to upload my music directly to Mp3juice?

No, you cannot upload any music directly to this website. To have your music on the Mp3juice website, you have to upload it to another platform first. Such as YouTube or SoundCloud, or any other platform available that supports download sources.

As soon as your music is uploaded there, you can easily find it on the Mp3juice list of music. Try to search it to find out.

### 7. Is there any special browser to access Mp3juice?

No, you can easily use any common browser to access Mp3juice. Such as Google Chrome, Microsoft Edge, Mozilla Firefox, Opera, or Safari. You can use any of the browsers to download the files from Mp3juice. Either MP3 or MP4 formats.

## 8. Is it really free to download songs from Mp3juice?

?

Yes, you can be sure of that. No matter how many songs you downloaded from Mp3juice, the website will not ask you to pay. Not a single dime.

But please be aware that all those songs you downloaded are only allowed to be used for personal enjoyment only. Do not make those songs into commercial projects. Remember that each song or music video has its copyright. As such, there is legalities involved.

## 9. Which music platform can I get the URL link from?

You can copy the URL link from many sources of music platforms. The most used sources are YouTube, Yandex, TikTok, Facebook, and many more. But some of your local sources are probably another music source for you.

haa

Such as the local music platform in your country or any blog, and even podcast. If they provide the link to copy, then you can paste that link to the Mp3juice website. Again, please adhere to the regulation to never use all those files for commercial purposes.

## 10. May I share the songs?

Yes, you may share them with friends or family. But always remember not to use it for any commercial purposes. This is strictly for personal use. You can share them on your social media account but only for personal enjoyment.

## 11. What other languages are provided for the songs?

There are 32 languages available for any user of Mp3juice. But the English language is still the most used. The high-demand songs lately are Korean, Thai, and Chinese. Especially with the boy bands, girl bands and solo singers arising from those countries.

musi are

Don't worry because this website has them in the collection as well. If the title is in their native language, you can easily type the name of the singer or the band. When the system finds the list of songs in the collection, you can choose the one you search for from that list.

Or if you found the link for that song or music video elsewhere, just copy the URL link. Then paste the link into the search box on the Mp3juice website. That way you don't have to type the information. The process will still be the same.

othav

rch fo from

The list of songs provided by the system is a bit confusing if it is not in English. But don't worry because you can search for the song in other languages. Basicly, you don't know the exact name that you search for. Don't worry, you are welcome to listen to all of them one by one until you find the right one to download.

## 12. Are all songs have lyrics?

F r e s p a s h

Yes, most of them have lyrics. But some are instrumental. If you are looking for lyrics, you can search for the song title in the search box. If you find the song, you can click on the lyrics link to see the lyrics.

Well, the fact is, any source that converts videos from YouTube or other sources free and in real-time, is too good to be legal. Because converting any video violates the copyrights. Thus, it can be considered illegal.

But since the downloaded videos and songs are used for personal enjoyment only, then it can be perceived as a legal platform. That is why it is prohibited to use the files for commercial use.

## 17. Is there any app version of Mp3juice?

Actually, yes. There is an app version of Mp3juice available for free on Google Playstore and some APK mod versions. As mentioned below:

- Go to Google Playstore and find the MP3Juice: MP3 Music Downloader. The version is v4.0 suitable for many Android devices.
- The APKCombo is MP3Juice – Mp3 Juice Download. The version is v1.1.4.10. But you have to go to their website to get the link.

## 18. Is Mp3juice a virus?

As one of the leading platforms for downloading music for free, many people are wondering if it is safe to use the services of this website. Do remember that on the internet, there is no place that is 100% virus-free.

But Mp3juice is always careful to keep all the files virus-free, including the anti-malware program. That way the files you downloaded will not bring the virus to your devices. But for safety precautions, install a good anti-malware program on your devices as well.

## 19. Does Mp3juice detect infections on my computer?

Sometimes malicious software can get into your computer without your knowledge. Then you will be having trouble removing Mp3juice from your computer. Removing this infection is as easy as uninstalling it.

First, disable the Windows system restore by right-clicking 'My Computer.' Then select the option 'turn off system restore.'

## 20. Can a virus infect a MP3 or video file?

The answer is no. That is because an MP3 or video file is just a data file, not self-executing programs. Even if a virus puts its code in the data file, it will stay harmless. But the file could get corrupt then you cannot play or can only play partially with your media player software.

Many people are asking what happened to MP3juices.cc, because MP3juices.cc has accompanied you through dozens of spring and autumn, and many users have accompanied MP3juices.cc to grow and develop, watching its functions become richer and richer, more and more. More and more music can be downloaded for everyone, and the download speed is getting faster and faster. When everything was developing for good, MP3juices.cc suddenly disappeared. Why is this?

Because MP3juices.cc is subject to strict DMCA reports, many users cannot find MP3juices.cc on search engines. However, our website has always been available, and we still insist on providing better services for you. At the same time, we also recommend that you bookmark MP3juices, which are more convenient to use.

Recently we have been trying to change MP3juices.cc to MP3juice.zone website to avoid DMCA, so you don't have to wonder about the URL change, we are always there.

The brand word "MP3 Juice" has been developed for more than ten years. We have accumulated a great brand reputation, but now more and more counterfeit brands are emerging to try to seize our brand words and users, which is unethical. Please download mp3 music after identifying the 2 domain names of mp3juices.cc and mp3juice.zone.

### **MP3juices - How MP3juices.cc works**

MP3juices.cc is very convenient to use. There is only one search box on the MP3juices.cc page. In the search box, you can search for whatever you want like a search engine. It's just that MP3juices is a music search engine, you can enter any relevant music keywords, such as song name, singer, album name, or even the TV series corresponding to the song, etc. We will search the whole network for keywords, and then provide you with the corresponding search results, find the song you want, and click "download" to download.

So, all you need to do is enter the song name in the MP3juices.cc search box, then click the "Search" button, wait for 1 to 2 seconds, and you will see all the download results related to the song. At this time, you only need to click the download button to get your target mp3 file. Remember, if there is a page jump at this point, don't worry, it's not a virus, it's just a suggestion ad, if it doesn't help you, please go back to MP3juices/MP3 Juice. Then you will find that your mp3 has been downloaded to your phone.

Also, you can enter the online video URL in the search bar of MP3juices/MP3 Juice. You will find that online video videos are easy to convert to mp3. And you can also confirm in MP3juices/MP3 Juice if the URL you entered matches the video you want to download, and you can choose to play.

The steps to download mp3juice songs are as follows:

- ✓ Just enter the song you want to download
- ✓ Click the search button
- ✓ Select the song in the search results from the list
- ✓ Can be filtered by online play
- ✓ Click to download mp3
