

30% off 40 Dollars

How to calculate 30 % off \$40. How to figure out percentages off a price. Using this calculator you will find that the amount after the discount is \$28. To find any discount, just use our Discount Calculator above.

Using this calculator you can find the discount value and the discounted price of an item. It is helpful to answer questions like:

- What is 30 percent (%) off \$40?
- What is \$40 minus 30 percent (%) off?
- How to calculate 30 percent off \$40?
- How much will you pay for an item where the original price before discount is \$40 when discounted 30 percent (%)? What is the final or sale price?
- \$12 is what percent off \$40?

Percent-off Formulas

To calculate discount it is ease by using the following formulas:

$$(a) \text{ Amount Saved} = \text{Orig. Price} \times \text{Discount \%} / 100$$

$$(b) \text{ Sale Price} = \text{Orig. Price} - \text{Amount Saved}$$

How to calculate 30 Percent-off

Now, let's solve the questions stated above:

FAQs on Percent-off

What's 30 percent-off \$40?

Replacing the given values in formula (a) we have:

$$\text{Amount Saved} = \text{Original Price} \times \text{Discount in Percent} / 100. \text{ So,}$$

$$\text{Amount Saved} = 40 \times 30 / 100$$

$$\text{Amount Saved} = 1200 / 100$$

$$\text{Amount Saved} = \$12 \text{ (answer).}$$

In other words, a 30% discount for a item with original price of \$40 is equal to \$12 (Amount Saved).

Note that to find the amount saved, just multiply it by the percentage and divide by 100.

What's the final price of an item of \$40 when discounted \$12?

Using the formula (b) and replacing the given values:

$$\text{Sale Price} = \text{Original Price} - \text{Amount Saved. So,}$$

$$\text{Sale Price} = 40 - 12$$

$$\text{Sale Price} = \$28 \text{ (answer).}$$

This means the cost of the item to you is \$28.

You will pay \$28 for a item with original price of \$40 when discounted 30%.

In this example, if you buy an item at \$40 with 30% discount, you will pay $40 - 12 = 28$ dollars.

12 is what percent off 40 dollars?

Using the formula (b) and replacing given values:

$$\text{Amount Saved} = \text{Original Price} \times \text{Discount in Percent} / 100. \text{ So,}$$

$$12 = 40 \times \text{Discount in Percent} / 100$$

$12 / 40 = \text{Discount in Percent} / 100$

$100 \times 12 / 40 = \text{Discount in Percent}$

$1200 / 40 = \text{Discount in Percent}$, or

Discount in Percent = 30 (answer).

21 Best Things To Buy On Amazon Under \$30

If I had to guess, I'd say I receive at least three shipments from Amazon every single week. In addition to purchasing all my toiletries, housewares, and holiday gifts, I've worked closely alongside Amazon for almost a year. Consequently, narrowing down the best affordable things to buy on Amazon is a difficult task. Amazon had over 564 million products for sale in 2018, and new ones are added every single day.

I've delved deep into gift guides, interesting finds, and trending products lists, and I've seen some of the weirdest stuff ever sold on the internet. (Pro-tip: if you're looking for a 60-inch bologna sandwich wall decal, you can find it there). That being said, there's lots of awesome and useful stuff available on Amazon, and I'm often left asking myself, "Why doesn't everyone own this thing?"

Amazon is heaven on earth for the modern shopper, because in addition to reliable reviews and competitive pricing, you've also got great customer service and products that actually and truly work. And of course, if you have a Prime account, you get free fast shipping on tons of items. It's hard to beat that!

Here are the best Amazon products I've found and used that you can purchase for \$30 or less, from travel pillows and beauty products to productivity planners and super-smart tech.

1. Because Everyone Knows That One Person

Poop Emoji Slippers, \$16, Amazon

Finally, these warm and comfortable poop emoji slippers — because everyone knows someone whose life revolves around that one little gross emoticon.

Reviewers say: "Bought these for a white rabbit party at Christmas and everyone wanted to steal them!"

2. Naturally Whiten Your Teeth With Charcoal

All Natural Charcoal Teeth Whitening, \$18, Amazon

People are flipping over this charcoal teeth whitening system, which uses all natural ingredients (like activated charcoal and cinnamon) to clean and whiten your teeth. Some say they saw results in just a day or two.

Reviewers say: "If you are looking for a product that will actually whiten your teeth without harmful chemicals or negative side effects such as tooth sensitivity, count your lucky stars that you chanced upon this product because your search ends here! I have nothing but praise for this tooth powder that achieves the exact results it is intended to! As a DIY enthusiast who rarely buys ready made personal care products for fear of harmful ingredients, I can honestly say I have no qualms about using this product. [...] I know I will be using this for a long time, and recommending to all my loved ones!"

3. A Great Quality Brush Set That Won't Fall Apart

BS-MALL Premium Kabuki Brush Set, \$13, Amazon

This professional BS-MALL Kabuki makeup brush set comes with 14 pieces that are all extremely durable, soft, easy to clean, and have reviewers raving about how great they are.

Reviewers say: "10/10 would recommend. I've worked at the Estée Lauder counter and used several high end brand brushes. I would definitely say these are comparable to high end brushes. The handles are nice, but don't feel as fancy as expensive brushes. But the brush itself is soft and feels just as good as the pricier brands. The set comes with a wide variety. [...] Definitely give these a try if you hate spending a ton of money but want good quality brushes."

4. Choose Any Color Light To Set The Mood

MagicLight Bluetooth Smart LED Light Bulb, \$15, Amazon

This MagicLight Bluetooth smart LED lightbulb syncs up to your phone and works with both Amazon Alexa and Google Home, so you can choose literally any color you want, set timers, and prompt the bulb to react to your music for a light show. Best of all, you can control the bulb

remotely if you'd like.

Reviewers say: "I love these bulbs!!! I have them around my ENTIRE HOUSE! You can change the colors for christmas or halloween. You can set them to music. You can control them from away or times. I have mine set from sunset to sunrise. I LOVE LOVE LOVE these bulbs, and the seller is amazing!"

5. A Daily Planner That Keeps You On Track To Achieve Your Goals

The Path Planner Pro, \$15, Amazon

Some daily planners give you enough space to jot down your appointments for the day or month — which is fine, but won't truly help you achieve short and long-term goals. This daily planner takes things one step further by offering a full-fledge life planner with a vision board, journal pages, monthly and daily goals pages, and even sections with Buddhist exercises and mandalas designed to calm your mind. Choose between two design options: black vegan leather or gold coil.

Reviewers say: "Yes, this is a lofty claim for a mere planner, but this planner did actually change my life this year. It's part planner, part life coach. By working through the exercises and goal orienting activities, you can really focus your efforts on what is important to you and stop letting time pass you by."

6. These Awesome Copper Mugs For A Great Price

A29 Moscow Mule Copper Mugs (Set of 4), \$27, Amazon

I'm all about the Moscow Mule copper mugs trend, and this set of four is handcrafted and made from pure copper, but for an awesome price. The set also comes with four copper straws, a shot glass, and a recipe booklet.

Reviewers say: "The mugs are beautifully crafted and finished and came with copper straws and a copper shot glass. The mugs feel good in your hands, not tinny like some others we have used. These are solid copper, dishwasher will damage the finish, hand wash only. If you like Mules you will love this set."

7. Style Your Hair In Minutes Without Damage

Entil Hair Straightener Brush, \$30, Amazon

This Entil heated hair straightening brush has high ratings because it makes your hair soft, straight, and manageable with just a few minutes of brushing, and it's got ceramic and ionizing technology to minimize damage. It comes with a protective glove, a brush, hair clips, and a lifetime warranty.

Reviewers say: "I love how fast it heats up and styles my hair. My hair looks healthy after I use it, I have gotten compliments from strangers after using this brush!"

8. Get Rid Of Back Pain Once And For All

HemingWeigh Acupressure Mat and Pillow Set, \$30, Amazon

A great quality acupressure mat, like the HemingWeigh Acupressure mat and pillow set, has little tiny spikes that stimulate certain pressure points in your neck and back, easing back pain and promoting relaxation.

Reviewers say: "Absolutely love this. If I'm feeling stressed out, or in pain, I lay on this for 10 minutes. What a difference in the way you feel after! Very relaxing."

9. This Handle And Stand For Your Phone

PopSocket, \$10, Amazon

The PopSocket is a little expanding handle that sticks to the back of your phone and can be used to tilt, grip, or prop while taking pictures, watching movies, or texting. When it's not in use, it folds right back in. This one has a pretty peace mandala print.

Reviewers say: "Pretty and makes the phone much easier to handle while doing other things."

10. Bring Your Tunes Anywhere With You

Etekcity RoverBeats Ultra Portable Wireless Bluetooth Speaker, \$17, Amazon

This Etekcity RoverBeats ultra portable wireless Bluetooth speaker is super small, but it's got a huge, clear sound, as well as a built-in mic for hands-free calling. With a Bluetooth connectivity range of up to 33 feet, a rechargeable battery that allows for 8 hours of play time, and an audio jack that makes it compatible with both Bluetooth and non-Bluetooth devices, the speaker is super convenient.

Reviewers say: "The sound quality is crystal clear even at max volume, reaches louder volumes than I thought it had the capacity too as well as providing decent bass. The battery holds a charge for hours and is also a quick charge when it runs out. The blue tooth feature makes it that much better. There truly isn't any Bluetooth portable speaker you could buy that's better for this price."

11. Get Rid Of Smells And Moisture In Your Home

Sensible Needs Bamboo Activated Charcoal Air Fresheners, \$20, Amazon

This set of five bamboo activated charcoal air fresheners absorbs any unpleasant smells, allergens, or moisture in your house, leaving it smelling clean and fresh. The set includes two large, one medium, and two small air freshener bags. Put them in your bathroom, car, or even your shoes.

Reviewers say: "This stuff is so amazing. I've never had a deodorizer work so effectively so fast before ever. I will order more ASAP So to keep even more freshness in my home."

12. Get Rid Of Smells And Moisture In Your Home

17. Get 100 Uses Out Of Your Disposable Razorblade

RazorPit Blade Sharpener, \$19, Amazon

Save some serious money on your razors with this RazorPit blade sharpener, which extends the life of your blades by effectively cleaning and sharpening them after each use. RazorPit claims that the sharpener works on all razors and can increase the number of shaves you get per razor from 10 all the way up to 100.

Reviewers say: "The razor sharpener is wonderful. It sharpens the blades better than i imagined it would. It saves me tons of cash. [Bizo OP h](#)

Then you can gift it to me with your money. 😊

Don't buy it at all in less you don't care about playing a realistic game. In terms of gameplay, 07>08. In mostly everything else excluding depth charts, 08>07. Turnovers are a mess, facemask penalty's aren't called, heisman is a cheat mode, and FIU's QB passes for 300 yds. Yeah, so if you want a realistic game, keep 07 and maybe rent 08 to see if you like it for yourself.

Re: Worth buying used for 40 bucks??

Everything that can possibly go wrong is wrong with them.

They're incredibly slow, they reset at random, players will disappear and then you have to go through 50 combinations until you can finally get the player back, and if you make more than one sub, it sorts the players backwards and when that's combined with the slowdown, it really sucks.

At this point, I'd wait either until 09, or until it drops to \$20. Apparently there's a patch that fixes some of the problems on the PS3, but not on the 360. Basically, it's a great game ruined by one major game killing flaws and 2-3 major flaws.

I would wait to see if the 360 patch ever does come out before getting it. Personally, I still like the game even with the major flaws, but I've never played 07.

Re: Worth buying used for 40 bucks??

I enjoy it every now and then. But I really just have to be in the mood I remember 2 years ago I couldnt put it down for the xbox. But now I have it for the 360 I can only play it for a good 2 hours maybe an hour and recently less. Rosters are always great but I cant find a updated verison for it.
