

Old Navy Techno Hoodies (with Built-in Headphones), PopMatters

POPMATTERS SPONSOR

Everyone wants to wear a hoodie these days and it's practically a required fashion statement for music fans of all stripes, from hipsters to hip-hoppers and jam banders to rock fiends. Old Navy's new Techno Hoodie offers a stylish spin for music freaks with built in, machine-washable headphones. So, you're always plugged in, never having to search for a way to plug in your iPod. The earbuds go right through the drawstrings and the jack comes out the right pocket, so you never have to deal with unsightly wires marring your cool look. The hoodies come in men's and women's sizes with many colors to choose from. We're rather keen on that Parakeet Green for women and the orange for men.
